Introduction

Prostate stem cell antigen is a glycosylphosphatidylinositol-anchored cell membrane glycoprotein. This gene is up-regulated in a large proportion of prostate cancers and is also detected in cancers of the bladder and pancreas.

Description

In addition to being highly expressed in the prostate it is also expressed in the bladder, placenta, colon, kidney, and stomach.

Application

ELISA, Western blot, protein-protein interactions, Pull-down assay,

Purification method

Affinity chromatography.

Formulation

PBS solution 1 mg/ml, contains 10 mM glutation.

Storage

-80C

Analyte specific reagent (ASR) manufactured under ISO 13485. Country of origin: Czech Republic
